

## CPR Statement

Dongen, May 2021

With new rules being implemented by the European Commission (EC), construction products – including cabling for fixed installations – can no longer be used in European buildings or civil engineering works if they are not tested and certified according to the new Construction Products Regulation (CPR) rules.

Hereby we declare that the spiral cables and power cords supplied by TBS, are not part of a fixed installation. Therefore the CPR regulations are not applicable for TBS.

Hoping to have informed you properly we remain,

TBS de Buck BV (TBS)
