

**Information regarding the EU Directive 2011/65/EU and 2015/863/EU (RoHS II)**

Dongen, September 2023

To whom it may concern,

RoHS II – Directive 2011/65/EU, effective as per July 2011, restricts the use of specific hazardous substances in electrical and electronic equipment (EEE). The European Directive 2015/863/EU has added four substances to the RoHS II, Annex II. These new restrictions came into force as per July 2019.

This statement certifies that products delivered by TBS are RoHS II compliant in accordance with the RoHS Directive 2011/65/EU and 2015/863 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS Directives). TBS hereby declares that all products supplied by TBS do not contain any of the substances as listed below in concentrations above the restricted limits:

Material/Substance	Limit in mass%
Lead (Pb)	0,1% *
Mercury (Hg)	0,1%
Cadmium (Cd)	0,01%
Hexavalent chromium	0,1%
Polybrominated biphenyls (PBB)	0,1%
Polybrominated diphenyl ethers (PBDE)	0,1%
<b>Additional substances added by Directive 2015/863/EU:</b>	
Diethylhexyl phthalate (DEHP)	0,1%
Butyl benzyl phthalate (BBP)	0,1%
Dibutyl phthalate (DBP)	0,1%
Diisobutyl phthalate (DIBP)	0,1%

**\* Remark:**

Some of our products made from lead-containing alloys, such as contact parts made of copper alloy (for example power plugs and crimp terminals) might contain copper alloy material containing more than 0,1 mass% of lead (but less than 4,0 mass%), which makes those products still compliant to the RoHS II regulations, according Annex III point 6c.

All information is to the best of our knowledge and is based upon latest information provided by our suppliers, proactively requested for by TBS. This declaration is not applicable in case material is supplied by customer and TBS only performs labour.
